

Y2 Instructions: Formal Example

How to Make a Papier Mâché Globe

Are you learning about the continents of the world? Read on to discover how to make a papier mâché globe of your own to help you to remember

You will need:

a round balloon

lots of strips of newspaper about 2cm wide

a bowl of water and flour mixture (one cup of flour and two cups of water)

an atlas

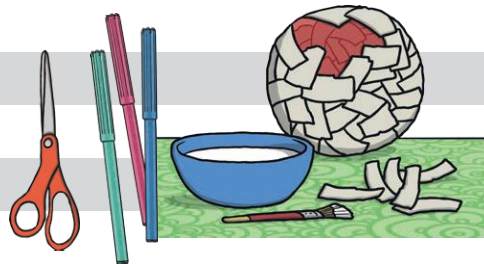

a continents of the world sheet

some blue paint and paintbrush

a pack of felt tip pens

a pair of scissors

some

- First of all, blow up the balloon gently. Don't let it burst.
- Ask a grown-up to help you tie the balloon if it is tricky.
- Dip the strips of newspaper in the flour and water mix and slowly wrap the strips all around the balloon until it is covered.
- Cover the balloon at least three or four times.
- Leave the balloon to go solid. Place it in a warm, dry place.
- Next, paint the whole globe blue to show the water.
- Leave to dry.
- Colour in the seven continents neatly on the activity sheet.
- Cut out the continents but be careful with the scissors.
- Stick the continents in the right position on the globe. Use an atlas to help you if you are unsure.
- Label the oceans and carefully draw the line of the equator.
- Finally, label the continents of North America, South America, Africa, Antarctica, Australasia, Europe and Asia.
